

EU-SEC

Manual

What is EU-SEC Manual

- ▶ **Results of the EU-SEC Project**
- ▶ **Elements methodology for coordinating national research activities**

Elements Methodology

- ◆ **Elaboration of common definitions**
- ◆ **Data collection and analysis**
- ◆ **Identification common benefits**
- ◆ **Proposals for joint initiatives**
- ◆ **Available resources for joint initiatives**

Elaboration of common definitions

Definition of Major Events

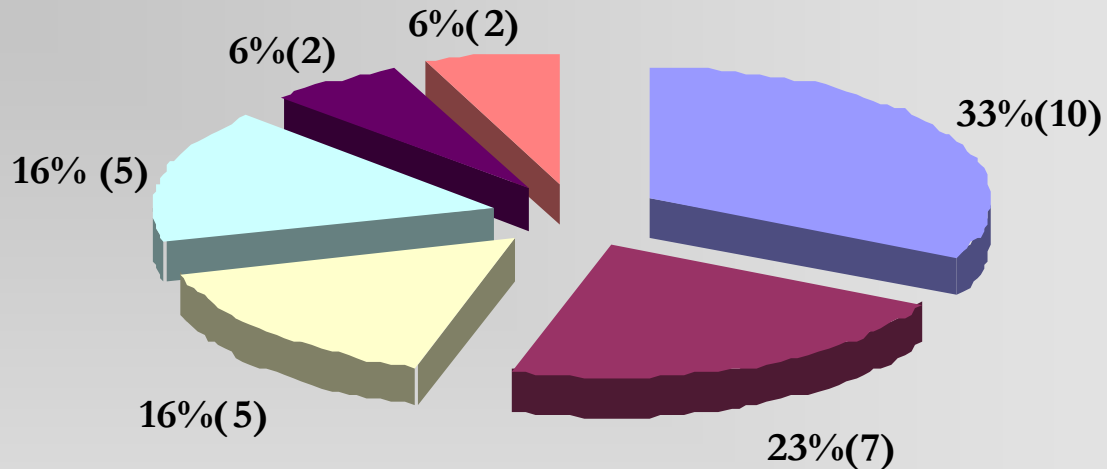

- **Historical, political significance or popularity**
- **Large media coverage and/or international media attendance**
- **Participation of citizens from different countries and/or possible target group**
- **Participation of VIPs and/or dignitaries**
- **High number of persons**
- **Event that poses the potential of threats and requires international cooperation and assistance**

Data collection and analysis

Data Collection

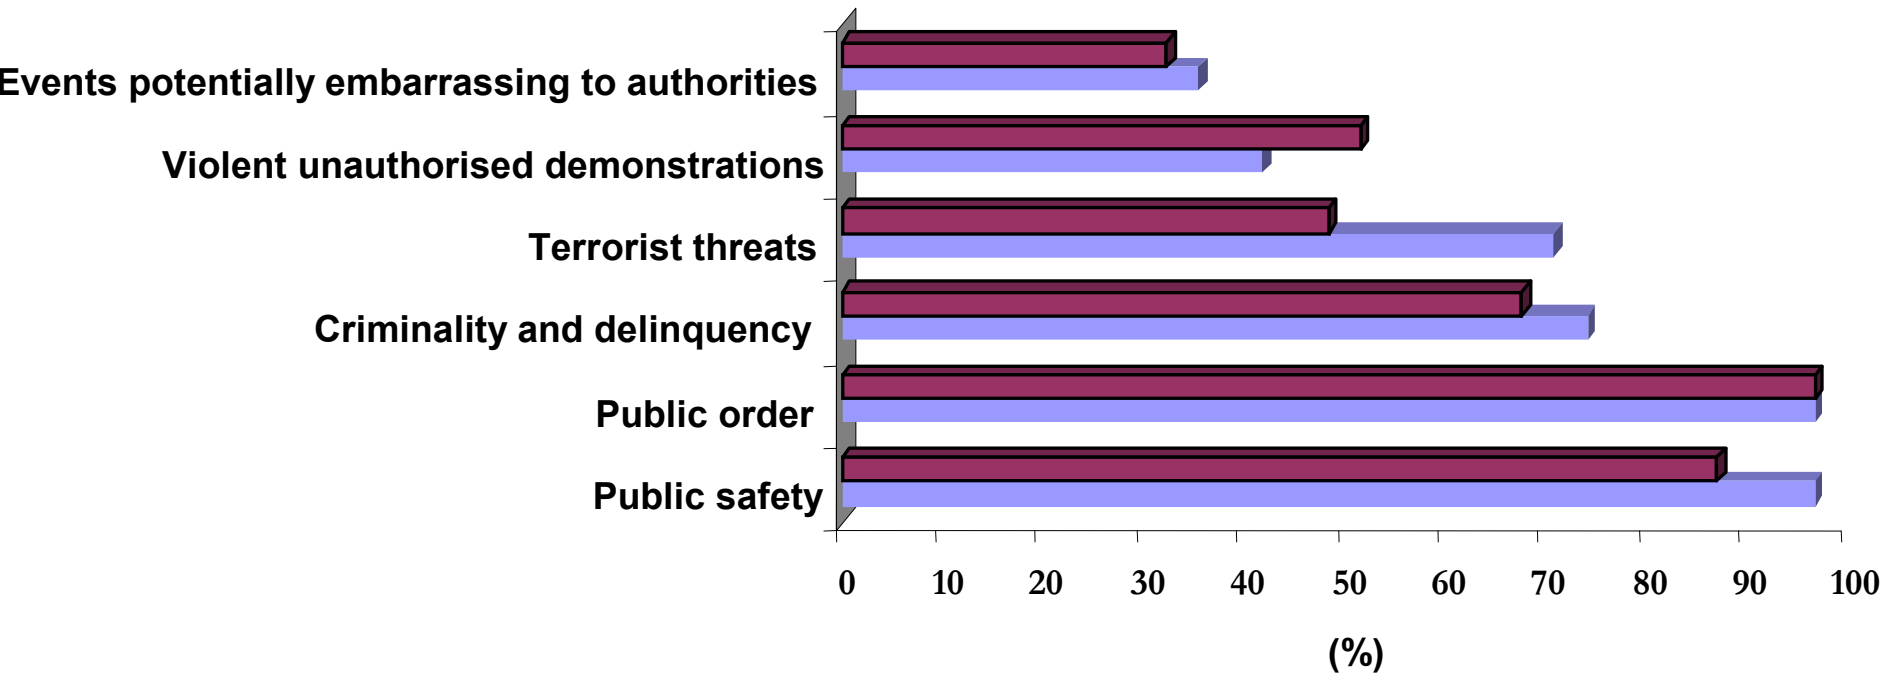

- Major Events
- Security Plans
- Threats and Vulnerabilities
- National Research on Major Events
- Research Centres

Categories of major events in analysis

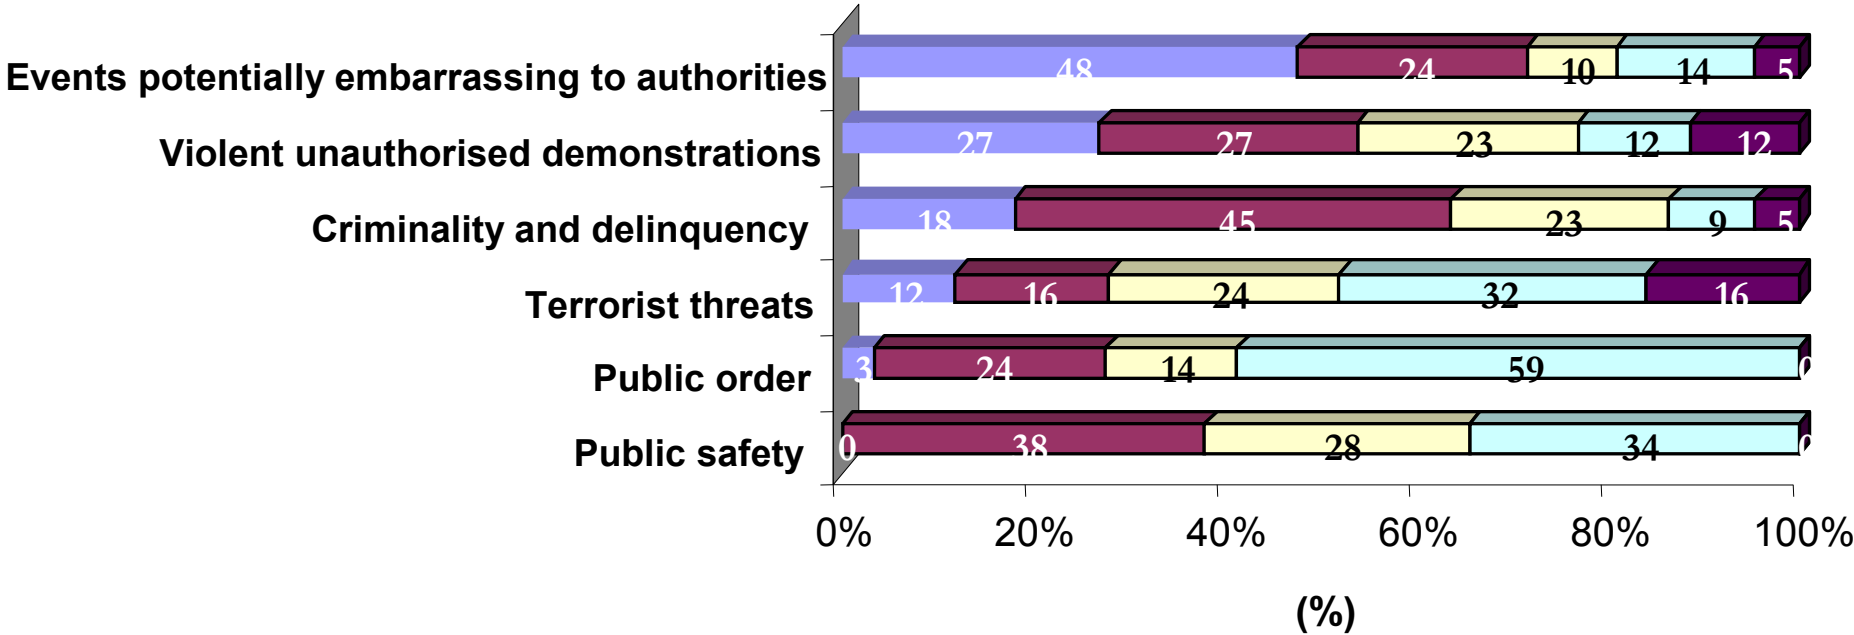

- High-level
- Major Football
- Large-scale cultural
- Major religious events and
- Olympics or other major sporting events
- Social or political protest/

Threats and vulnerabilities

■ Threats ■ Vulnerabilities

Level of risks

Identification of common benefits

Areas to explore

1) Terrorism and Threat Assessment

E.g.

- ◆ New forms of terrorist threats;
- ◆ Explosive detection technology and peroxide explosive detection methods;
- ◆ Terrorist profiling and recognition;
- ◆ Non metallic weapons detection;

Areas to explore

2) Media and communication

E.g.

- ▶ **Improvement of internal and external communication;**
- ▶ **Development of common security practices/procedures concerning communication;**
- ▶ **Improvement of communication to spectators;**

Areas to explore

3) Public order policing

E.g.

- ❑ Crowd behaviour;
- ❑ Impact of alcohol sales/consumption;
- ❑ Joint EU police public order field exercise via CEPOL;
- ❑ Better missing/lost persons procedures;

Areas to explore

4) International cooperation

E.g.

- **Multinational support missions;**
- **Early involvement in foreign agencies;**
- **International cooperation on evaluation;**
- **Development of an international best police practices standard regarding personal protection officers**

Areas to explore

5) Technology development

E.g.

- What technologies are countries developing?
- What private companies operate in the field and what technology related products are they offering?
- How can technology be used/bought to facilitate international cooperation?

Areas to explore

6) Private Security (role and use of)

E.g.

- ☑ Is the use of private security increasing? If so, what policing functions are they involved with?
- ☑ What has been the role of private security in recent events? What was the impact of this involvement?
- ☑ Should some of the profits generated by Major Events be used to employ private companies?

Areas to explore

7) Evaluation and information sharing

E.g.

- How can best practices be transferred?
- How is information currently being exchanged?
- What is the most efficient way of sharing information? What channels can be set up? What measures can be taken?
- What information sharing methodologies exist?

Proposals for joint research
initiatives

Proposals

- 1. Common Pool of Available Specialist Technical Equipment (STEP)**
- 2. Common Register of Major Events in Europe (EMER)**
- 3. European Register of Vetted Events Staff (EVES)**
- 4. Rolling Integrity Testing & Evaluation Survey (RITES)**
- 5. Field Test the IPO Toolkit**

Exploring available resources
for joint research activities

Resources

- ❖ **Legal resources**
- ❖ **Networking systems**
- ❖ **Best practice in coordination of national resources**
- ❖ **Experience on security equipment**

Cooperation with the
private sector

Suggestion for developing PPP

- **Ensuring open market access**
- **Target**
- **Timing**
- **Involvement decision-makers**
